

Overview:

This was another last-minute rushed project so it's not at the level I want it to be at to be at. It's good as a starter but not much else. I will continue to update my portfolio until I consider it "good."

Until then, here is what I have as of now:

-HTML:

- > Pretty much everything is in a div.
- > Embedded Resume using <embed> tag
- > Navigation links send you to specific part of page but navigation covers title
- > "Resume" section includes source for arrow image

-CSS:

- > Using Skeleton framework
- > Simple design meant look professional
- > (Mostly) Responsive
- > Updated display of mail form

-PHP:

- > Used mail form exercise

-JavaScript:

- > Shows / hides resume
- > Animates image next to "Resume"

-Images:

- > Icon made by Elegant Themes (www.flaticon.com/authors/elegant-themes) from www.flaticon.com is licensed by CC 3.0 BY
- > Placeholder Images from placeholder.com
